

FIGURES ON THE GAS MARKET 2019: NATURAL GAS SUPPLIER SWITCHES

Since January 1st 2004, VREG sets up a monthly survey of the distribution network operators concerning the number of access points. Details about the delivered quantities per supplier are only requested once a year with respect to the previous calendar year.

The published figures only involve the Flemish territory and they are limited to the activities on the distribution network. They will be updated every three months.
